

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

PBS WISE Europe (the “Fund”) A sub-fund of Pâris Bertrand Sturdza Investments plc (the “UCITS”) Euro Retail Class – IE00BSMT0Y46 (the “Class”)

Objectives and Investment Policy

The Fund aims to provide capital appreciation on your investment while seeking to provide positive performance compared to European equity markets over the medium to long term.

The Fund intends to invest primarily in equity or other asset classes representing the return of exchange listed equity securities. The investment focus is predominantly on European securities but the Fund may invest up to 25% of its assets on a global basis and 20% of its assets in emerging markets.

The Fund invests in a highly diversified investment portfolio across sectors, market capitalizations and countries that combines the approach to invest in a core portfolio focused on quality and defensive securities with an opportunistic allocation to securities selected on the basis of dividend yield or short term performance trends.

The Fund will target underlying investments that can easily be bought or sold in the market with few liquidity constraints.

The Fund will also use financial derivatives such as futures and options both to hedge the value of the assets within the investment portfolio and also to gain additional investment exposure where necessary. It is likely that a large proportion of the Fund’s assets may be invested in financial derivative instruments at any one time which may enhance or detract from the performance of the Fund. The Fund may be leveraged through the use of financial derivative instruments.

It is not anticipated that portfolio transaction costs will have a material impact on performance. The performance of the Fund is measured against the MSCI Europe Net Total Return Index.

You can buy and sell your shares in the Fund on a daily basis provided that this is a business day in Ireland, Guernsey or Geneva. The Shares that you will hold in the Fund are accumulating Shares. This means that income from the Fund’s investments will be included in the value of your shares rather than being paid to you as a dividend.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within twelve months.

Risk and Reward Profile of the Fund

Lower Risk

Higher Risk

Typically lower rewards

Typically higher rewards

---	---	---	---	---	---	---

This indicator is based on historical data and may not be a reliable indicator of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean risk free.

The risk indicator for the Fund is set as 5 which reflects the historic price behaviour of the asset class in which the Fund invests:

- Investments in equity securities are subject to fluctuations in value dependent on market conditions which will directly affect the value of investments held by the Fund.
- The Fund invests with a focus on one region which may increase the risk of investing over a fund that invests in a globally diversified range of countries.
- The Fund invests in a concentrated portfolio of investments that may potentially focus on one or more sectors or industries. The range of investments may provide more risk to the Fund than a more diversified portfolio across sectors and industries.

Additional specific risks of investing in this Fund not reflected in the volatility measure on which the risk indicator is based include:

- **Taxation Risk:** the risk of changes in taxation regimes, including legal and regulatory changes.
- **Liquidity Risk:** the risk that the assets of the Fund may have low levels of liquidity in some circumstances, notwithstanding the fact that the Fund will target investments with few liquidity constraints.
- **Custody and Settlement Risk:** the risk that the transactions entered into by the Fund are not settled or registered as appropriate.
- **Counterparty Risk:** Counterparties and issuers of securities in which the Fund invests may default on their obligations to return deposits of cash and securities, or to provide the expected return on securities. This could mean the loss of all or part of the value of the asset involved.
- **Emerging Market Risk:** Investment in emerging markets may be considered speculative. Commonly legal and accounting measures can offer less protection to investors than in developed markets.
- **Operational Risk:** the risks associated with correctly reflecting the value and safekeeping of the assets of the Fund.
- **Financial Derivatives Risk:** the risk that financial derivatives may increase or reduce exposure to underlying assets and may create gearing; therefore their use may result in greater fluctuations of the Net Asset Value of the Fund.

The Prospectus and Supplement give you more details about all the risks for the Fund - see under “Practical Information” for how to obtain a copy.

Charges for the Fund

One-off charges taken before or after you invest	
Entry charge	5%
Exit charge	0%
The entry and exit charges shown are maximum figures and are the amount that might be taken out of your money before it is invested or before the proceeds of your investment are paid out	
Charges taken from the Fund over a year	
Ongoing charge	2.17%
Charges taken from the Fund under certain specific conditions	
Performance fee	10 % of the outperformance of the Class when compared to the benchmark index, provided that the outperformance exceeds the level reached in previous periods. This amounted to 0.01% of the Class for the year ending 31 December 2017.

These charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. Please refer to your financial adviser or the Distributor for the actual entry and exit charges.

The ongoing charges figure shown here is an estimate of the charges which are based on the financial records as of 29 December 2017. The UCITS' annual report for each financial year will include detail of the charges made. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry / exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see the relevant section in the Supplement, which is available at www.pbsinvestments.com.

Past Performance

Past performance is not a guide to future performance. The value of your investment may go down as well as up and you may not get back the amount you originally invested.

The chart shows the annual performance in EUR terms of the Class per calendar year since launch in December 2015. It is expressed as a percentage change of the Fund's net asset value at each year end. The Fund came into existence in December 2014.

Performance is shown after deduction of ongoing charges and performance fees. Any entry or exit fees are excluded from the calculation.

Practical Information
